The diagram is a genealogical chart template. It begins with a central box on the left for the first couple, containing fields for Name (Имя), Birth (Род.), Death (Ум.), and Marriage (Брак). This box branches into two main paths. The top path leads to a box for the first couple's children, which then branches into two more boxes for the next generation. The bottom path leads to a box for the second couple, which also branches into two more boxes for the next generation. Each of these four boxes further branches into two boxes for the third generation, and each of those eight boxes branches into two boxes for the fourth generation. The chart is designed to be filled out with specific family data, with fields for Name (Имя), Birth (Род.), Death (Ум.), and Marriage (Брак) for each individual.
